I just had a house fire, what do I do?

- Make sure everyone is safe.**
- Call your agent. They can help arrange temporary housing and guide you through the process.**
- Contact a fire restoration company to board up windows or doors that were damaged.**
- Contact the police department to let them know that there was a fire and that the home will be vacant.**
- Keep detailed records of any expenses incurred due to the loss as this may be reimbursed by your insurance company.**
- Go to https://www.usfa.fema.gov/downloads/pdf/publications/fa_46.pdf for a detailed plan to recover after a fire.**
